

## Poster Session A (Friday 29th September)

Id	Title	Poster Board No.	Presentation Time
74	Making Mobility Falls Prevention and Management Everyone's Business	1	9am
39	An Audit Of Vitamin D Status in Acute Medical Patients Over The Age Of 65	1	9am
101	An Audit of Falls Risk Assessment in Older Adults in an Irish General Practice.	1	9am
201	Prevalence of osteoporosis based on DXA criteria in large sample of older Irish adults attending GP or outpatient services	1	9am
204	A prospective study using the Irish Hip Fracture Database developed Frailty Index to predict delirium and prolonged length of stay	1	9am
77	Introducing a Do Not Attempt Cardio-pulmonary Resuscitation (DNACPR) and Treatment Escalation Plan (TEP) Guideline in an acute hospital.	1	9am
242	Optimising Bone Health Assessment And Management In Parkinson's Disease: A Closed Loop Quality Improvement Project	1	1.30pm
62	Falls Prevention Is Everyone's Business	1	1.30pm
241	Please consider bone assessment: Improving the identification and management of vertebral fractures by a Fracture Liaison Service	1	1.30pm
270	FastTraX Fracture Service- Reducing wait time for Nursing Home Residents in the Emergency department	1	1.30pm
26	Audit of Osteoporosis Treatment in Patients Undergoing Orthogeriatric Rehabilitation	1	1.30pm
93	Reduce Falls Rates In Care Homes By Replacing Falls Risk Screening With A Multifactorial Falls Risk Assessment Tool	1	1.30pm
96	Implementing Multifactorial Falls Risk Assessments In The Community For Older Adults At High Risk Of Falls	1	1.30pm
28	Training Future Leaders In Geriatrics - An Executive Leadership Academy	1	1.30pm
245	"Pad Culture": The use of continence wear in older people in an Irish University Hospital	1	1.30pm
163	Examining the appropriateness of tilt-testing within a community integrated care hub for Older Persons Services	2	9am
144	Personality's association with the concordance of subjective and objective cholesterol measures: Findings from the Irish Longitudinal Study on Ageing (TILDA).	2	9am
135	OptiCogs: Feasibility of a multicomponent intervention to rehabilitate people with cognitive impairment post-stroke	2	9am

351	Snapshot of Transient Ischaemic Attack Inpatient Management at a Model Three Irish Hospital	2	9am
313	Audit of Adherence to the National Standards of Acute Stroke Metrics in a Tertiary Hospital in Dublin, Ireland	2	9am
141	Perspectives of key stakeholders on an adaptive physical activity mHealth intervention in the prevention of secondary stroke: a qualitative study	2	9am
331	Patient Experience in a Falls and Syncope Service in a large Irish teaching hospital.	2	1.30pm
281	Side Effects associated with IV Zoledronic Acid Infusion in patients with Osteoporosis.	2	1.30pm
348	Capturing The Impact Of An Occupational Therapy Led Falls Education Group With A Client-Centred And Peer-Learning Approach On MedEl Inpatients.	2	1.30pm
157	Budget Impact Analysis of Holter monitors provision in an outpatient clinic	2	1.30pm
346	The Bons Effect; Evaluation of the Frailty Service provision in Bons Secours, Galway.	2	1.30pm
161	Mapping and analysing outpatient clinics for a quality improvement	2	1.30pm
334	Carotenoids and Parkinson, 's Disease , ' ' What does the Literature say?	2	1.30pm
341	Auditing the Timing of CT-Brain and Angiograms in Suspected Acute Stroke	2	1.30pm
307	An Audit of Dual antiplatelet prescribing after minor ischaemic stroke.	2	1.30pm
310	Identifying And Characterising The "Bermuda Triangle" In Older Adults Referred For Comprehensive Geriatric Assessment: Its Association With Falls And Polypharmacy	3	9am
298	An Atypical Presentation of Creutzfeld-Jakob Disease as a Stroke Mimic - Experience from an Irish Tertiary Center	3	9am
31	Stroke Early Supported Discharge: Continuing to improve Patient and Organisational outcomes.	3	9am
221	A one year audit of Intracranial Haemorrhages that presented to a level 4 Hospital and died within 30 days	3	9am
91	Audit of % Stroke Patients having Swallow Screen performed within 4hrs of Diagnosis on the Stroke Ward in OLOL Hospital Drogheda.	3	9am
55	Dysphagia Identification Practices in Residential Long-Term Care Settings in the Republic of Ireland: A Cross-Sectional Electronic Survey.	3	9am
73	A Pilot Of Introducing Comprehensive Geriatric Assessment (CGA) In Older Patients Admitted To An Acute Hospital To Prevent Acute Re-Hospitalisation	3	1.30pm
253	An Audit Of The Inpatient Management Of Parkinson, 's Disease Medication In A Level Four Hospital in 2019	3	1.30pm

112	Barriers and facilitators to data collection for the Irish National Audit of Stroke.	3	1.30pm
11	Audit of the effectiveness of the MBI as a functional outcome measure & the correlation between admission scores and discharge destination.	3	1.30pm
23	Rapid Access Stroke Prevention Clinic, Are We Adhering To International Recommendations?	3	1.30pm
176	The AVERT DOSE international trial: an update on the Irish experience	3	1.30pm
252	An Audit Of The Inpatient Course Of Patients With Parkinson`s Disease In A Level Four Hospital in 2019	3	1.30pm
145	Audit Of Yearly Prevalence Of Atrial Fibrillation In Ischemic Stroke Patients Admitted To A Level III Acute Irish Hospital	3	1.30pm
191	Intermittent: An Audit Of Venous Thromboembolism Prophylaxis On Our Stroke Unit	3	1.30pm
220	Kildare West Wicklow OPT: A Pilot Study To Provide Early Supported Discharge for Older Adults (>65) In Naas General Hospital	4	9am
186	Experiences Of Implementing A Group Intervention Targeting Sarcopenia In An Integrated Care For Older Persons Hub	4	9am
185	Outcomes From A Nutrition And Exercise Group Targeting Sarcopenia In Older Adults Attending An Integrated Care For Older Persons Hub	4	9am
258	Using Participatory Co-design To Develop Recommendations on Human Rights For People Living With Dementia In Irish Nursing Homes	4	9am
177	Embracing choice: Perspectives of older workers on extended working lives	4	9am
181	The experiences and perceptions of community volunteers in providing nutrition care supporting older adults. Qualitative evidence synthesis	4	9am
303	The influence of social constructivism on children and young adults perspectives of parental young onset dementia.	4	1.30pm
89	Mapping the Development of Education to Implement National Clinical Guideline: Appropriate Prescribing of Psychotropic Medication for Non-Cognitive Symptoms of Dementia	4	1.30pm
315	Financial Planning As Part Of An Integrated Care Comprehensive Geriatric Assessment	4	1.30pm
188	Characteristics and Outcomes of Long-term Care Facility Residents Acutely Admitted to Hospital	4	1.30pm
202	Development of a be-SPOKE ICPOP clinics in a rural catchment area	4	1.30pm
14	How Can Remote Rural Island Place Influence The Ageing of Mid-life Women?	4	1.30pm

317	Analysing The Social History Aspects Of An Integrated Care Comprehensive Geriatric Assessment Incorporating Patients Views And Wishes	4	1.30pm
90	Combining Scoping Review and Concept Analysis Methodologies to Clarify the Meaning of Filial Coercive Control	4	1.30pm
47	The Knowledge and Attitudes of Healthcare Workers Towards Sexuality and Sexual Relationships in Older Persons	4	1.30pm
197	Transitions of older adults with dementia to and from acute general hospital and nursing home settings.	5	9am
342	Psychotropic Medication Prescriptions in a Long Term Care Setting	5	9am
52	"I Remember When..." - Environmental, Event-based And Personally Relevant Objects That Support Reminiscence In Virtual Reality And Other Digital Settings	5	9am
147	PRIME-COG Study: Grip Strength, Anthropometrics And Cognitive Decline	5	9am
19	General Practitioners' Perspectives on Advance Care Planning: A Qualitative Study	5	9am
4	How do befriending services impact health? A mixed methods analysis of potential mechanistic pathways	5	9am
45	New eBook Resource: The Supportive Memory Guide - Empowering You with Practical Tips and Useful Technologies.	5	1.30pm
111	Normal Pressure Hydrocephalus ,À a disease made for frailty clinics	5	1.30pm
215	Including Dementia Simulation In Caregiver Education Enhances Knowledge, Confidence, Empathy and Caregiving Approach.	5	1.30pm
288	Carers In Transition: A Support Group For Dementia Carers Whose Spouse Is Transitioning To Long Term Care	5	1.30pm
330	Evaluating Anticoagulant Prescribing Errors in Older Adults in a Rehabilitation Setting	5	1.30pm
233	Residents' Experiences of COVID-19 Pandemic in a Long-Term Care Facility in Ireland- a Qualitative Study	5	1.30pm
305	Assessing Patient Attire in a Medical Gerontology Ward: Impact of an "End PJ Paralysis" Audit	5	1.30pm
301	Role of Comprehensive Geriatric Assessment In Determining Appropriateness Of Admission To Long Term Care	5	1.30pm
234	Staffs' Understanding of Human Rights Based Care in Long-Term Care Facilities in Ireland- a Qualitative Study	5	1.30pm
168	A Quality Improvement Initiative To Enhance Dementia Inclusivity Within The Physical Environment Of An Older Persons,À Acute Hospital Ward	6	9am
123	Setting Up A New Pathfinder Service ,À Peaks And Pitfalls	6	9am
179	Assessing the Effectiveness of the Integrated Care Team for Older Persons: A Patient Satisfaction Survey	6	9am

20	Clinical Competencies of the Clinical Nurse Specialist in Care of the Older Person in a Geriatric Assessment Unit	6	9am
58	Review Of A Pilot Reablement Team Service	6	9am
110	Identification Of Urinary Incontinence Through Comprehensive Geriatric Assessment Among An Integrated Care Programme Of Older Persons Population	6	9am
327	A Review Of Patients Referred To Community Rehabilitation (Exwell Medical) From Gerontology Clinic In a Regional Hospital	6	1.30pm
113	Training GardaV# in Dementia Awareness	6	1.30pm
114	Training GardaV# in Dementia Awareness	6	1.30pm
38	Operational Teams Leads-Stuck in the Middle?	6	1.30pm
183	Pathfinder Emergency Response to Urgent Urinary Catheter Issues in Older Adults; A Service Profile	6	1.30pm
142	Identifying common housing conditions affecting older people relevant to integrated care for older persons in Ireland	6	1.30pm
64	Driving positive ageing at home: Older Adults' Engagement with ALONE Support Services	6	1.30pm
150	Strengthening Community Bonds to Support Older People: A Dynamic Partnership between ALONE and the GAA	6	1.30pm
143	Nursing home care in Ireland and the built environment: key emerging issues and insights	6	1.30pm
294	The Value of Psycho-Educational and Peer Groups for Dementia Family Carers	7	9am
247	Assessing The Impact Of A New Integrated Care Framework For Nursing Home Residents	7	9am
279	The Experience of Designing an Integrated Service- A Pragmatic Approach to Healthcare Delivery	7	9am
352	Integrated Care Programme for Older Persons ,À Community Specialist Teams: Evaluating the Patient Experiences	7	9am
232	A Scoping Review of Interprofessional Collaboration for people over 65 with dementia living in the community.	7	9am
293	Advance Care Planning in Older Persons Mental Health, Insights from Interdisciplinary Healthcare Professionals	7	9am
295	Don't Forget About Memory...Prevalence of Cognitive Impairment In Older Adults Attending The Integrated Day Hospital	7	1.30pm
321	The Barriers and Enablers to an Effective Integrated Care Programme for Older Persons: A Qualitative Study	7	1.30pm
333	Integrated Care and Impact on Length of Time-At-Home, a Retrospective Cohort Study	7	1.30pm
225	The pattern of ICPOP service use according to the clinical frailty scale.	7	1.30pm
100	Prevalence of Probable Sarcopenia and Associated Factors in Older Adults undergoing Comprehensive Geriatric Assessment	7	1.30pm

228	The impact lack of fulfilled home support service allocation on informal caregivers.	7	1.30pm
325	Demographics of patients presenting to the Rapid Access Frailty Assessment Unit (RAFAU) in a Regional Hospital in 2023	7	1.30pm
224	Profiling The First Service Users Of A Community Specialist Team For Older Persons: A Retrospective Chart Audit	7	1.30pm
261	Perceptions Of And Attitudes Towards Problematic Polypharmacy And Prescribing Cascades In Older Adults: A Stakeholder Analysis	7	1.30pm
347	Competency Frameworks For Non-Geriatric Medicine Physicians Caring For Older Adults: A Scoping Review	8	9am
227	An Evaluation Of Pharmacist-Delivered Medication Education In A Frailty At The Front Door Interdisciplinary Team	8	9am
276	Development Of Inter-Professional Simulation-Based Education In Geriatric Medicine	8	9am
139	Emerging Trends In The Emergency Department Of A Level Three Hospital Using The Clinical Frailty Scale	8	9am
187	Prospective Study of Patients Admitted to a Model 2 Hospital	8	9am
71	NIH-AARP: Association of caregiving with lifestyle cardiovascular disease risk factors	8	9am
287	Profile Of Patients Receiving Physiotherapy Within An Integrated Care Programme For Older Persons (ICPOP) Service Covering A Large Geographical Area	8	1.30pm
267	Survey of knowledge and medications management of patients with Parkinson,Äôs disease amongst Non- Consultant hospital doctors	8	1.30pm
318	Impact of Dedicated Teaching on Frailty and Comprehensive Geriatric Assessment at Undergraduate Level	8	1.30pm
278	Avoiding acute hospital admission through rapid access rehabilitation pathways for frail older patients through cross site integrated working	8	1.30pm
309	Sensory function impairment as a falls risk factor of patients on a frailty intervention team pathway	8	1.30pm
35	Age, Procrastination, Depressive Symptomatology, And Loneliness: A Structural Equation Modelling Approach	8	1.30pm
231	An Evaluation Of The Dietetic Service In A Geriatric Assessment Unit - Nutritional Status And Outcomes	8	1.30pm
266	The Current Rehabilitation Needs Of An Acute Tertiary Hospital ,Äì A Point Prevalence Study	8	1.30pm
268	Specialist Stroke Rehabilitation Needs In A Tertiary Hospital ,Äì Are Needs Being Met?	8	1.30pm
213	A Frailty Intervention Therapy Team (FITT) Trialing Extended Hour's Service Within A Level 3 Emergency Department	9	9am
269	Profiling frail patients assessed by the Rapid Access Frailty Team in the Emergency Department of a Level 3 hospital.	9	9am

174	A Silver Lining: The Identification of Silver Trauma at Triage for Older Persons (>65) Presenting to the Emergency Department	9	9am
311	Nutrition And Dietetics On A Frailty At The Front Door Team, What Does It Look Like?	9	9am
158	Delirium As A Predictor Of Admission In The Emergency Department	9	9am
255	Preliminary Findings From A Prospective Cohort Study Of Ireland-First Community Fibreoptic Endoscopic Evaluation Of Swallowing (cFEES) Service	9	9am
138	Falls Management Simulation	9	1.30pm
250	Streamlining Rehabilitation for Hip Fracture Patients: A Pilot Quality Improvement Project	9	1.30pm
162	Establishing A Geriatric Friendly Emergency Department In Ireland With A Checklist And Gap Analysis	9	1.30pm
65	A REVIEW OF THE OLDER PERSONS RAPID ASSESSMENT HUB (OPRAH) IN THE EMERGENCY DEPARTMENT (ED)	9	1.30pm
345	Integration Of Care For Older Adults: An Evaluation Analysis Of The Clinical Pathways From The Emergency Department	9	1.30pm
34	Dysphagia At The Front Door: Profiling Dysphagia In A Frail Population Presenting To The Emergency Department	9	1.30pm
154	Tobacco Smoking: Impact On Medication Use, Healthcare Utilisation And Hospitalisation In Older Adults; TILDA Waves 3-4	9	1.30pm
43	Nursing Home Residents Presenting To The Emergency Department; What Can Multidisciplinary, Integrated Frailty Teams Offer?	9	1.30pm
128	Foot Problems In Older Persons Attending a Day Hospital	9	1.30pm
